

Specialty Focus-Great Oaks Therapy Center

Making the Referral

Top 3-5 inappropriate referrals

- No inpatient services
- No medication services addiction services are hard to care for in PP as well

What should be done by primary care before making a referral?

Nothing really - just prep that we don't take insurance but will work with their budget

What is urgent?

Suicidality with a plan - other than that we can handle it.

Communication flow

We will get a release from the patient at the first appointment to coordinate care and chat about what they feel comfortable sharing.
