

PREFERRED PHYSICAL THERAPY PRACTICE SPOTLIGHT: FEBRUARY 2014

PREFERRED PHYSICAL THERAPY

Our mission is to enhance the overall physical health, fitness, and quality of life of individuals by treating them with the highest quality, comprehensive and individualized physical therapy services possible.

Preferred Physical Therapy began treating patients in the Kansas City Metro area in 2006 with a single clinic location and just one physical therapist. In the few years since our humble beginnings, we have grown considerably. As of June 2012, we are treating patients at 4 different Preferred Physical Therapy branded locations as well as 1 therapist owned franchise operating under the Preferred Physical Therapy name. We employ more than 20 licensed therapists.

At Preferred Physical Therapy, our conservative approach allows for successful rehabilitation of musculoskeletal conditions. Treatment programs are designed to meet the specific rehabilitation needs of the individual. This will enable the patient to return to maximum performance in work, athletics, and everyday activities.

Our objective is to provide quality, comprehensive therapy programs in a professional setting. We are committed to combining the best business practices of quality and evidence-based services with excellent customer service and personalized physical therapy. We believe that the needs of our patients and clients in the community come first. To meet those needs, we will constantly strive to exceed the standard of care in physical therapy to improve the quality of life through the combined efforts and cooperation of each individual within our organization.

Referring Physicians

You work hard to offer your patients the very best medical care available. When your patients require physical therapy as part of their treatment, the therapists at Preferred Physical Therapy are the best choice.

Four Reasons Why You Should Choose Preferred Physical Therapy

Quality – We are committed to excellence in therapy with the highest quality care available in order to help patients experience therapy above what they are accustomed to.

Cost – We are a "home grown" regional network that offers the best care at the most reasonable costs.

Specialties – Preferred PT provides many different specialties at each location to be able to treat a wide variety of conditions, we are continually training our therapists in the latest techniques to professionally provide your patients with the highest quality of care.

Communication – We take great pride and effort to have only the best communication between the therapist and referring doctor. This allows you to keep in vital connection with the patient's progress and keeps you actively participating in their care. This
